WORK EXPERIENCE

Freelancer.com Ltd. Inc.

Software Engineer (Trust & Safety Team) · July 2016 – present

<http://freelancer.com/>

Developed systems relating to anti-fraud, infraction and dispute management, KYC and verification, chargebacks, etc. to promote a safe and professional work environment and to establish trust and safety in users of the Freelancer.com platform.

Quipper Ltd.

Software Developer · Apr 2016 – Jun 2016

<https://www.quipper.com/>

Developed various features and product improvement for Quipper, focusing on educational platforms as supplementary tools for teachers and students.

Stratpoint Technologies Inc.

Web Developer Intern · Apr 2014 – Jun 2014

<https://www.juanderapp.com/web/>

Developed the web implementation of JuanderApp, an application for Filipino OFWs to stay connected and updated with the latest Philippine news.

PROJECTS

Rod & Staff Recruitment Directory

Project Manager, Frontend Developer · Apr 2017 – Oct 2017

Developed the client application for an admin system for Rod & Staff Recruitment agency, which serves as their internal recruitment database and management tool.

PSHS Careers

Project Manager, Software Developer · Sep 2015 – Feb 2016

Worked on the official web system that handles the career promotion process in Philippine Science High School.

BuildEx

Tech Lead, Frontend Developer · Sep 2015 – Apr 2017

<http://buildex.psych.upd.edu.ph/>

Led the tech development for an online web tool used in conducting research for the UP Department of Psychology. It works as a flexible drag and drop experiment creation system.

USC Website

Project Manager · Apr 2014 – Jan 2015

<http://usc.upd.edu.ph/>

Managed the development team in creating the official website for the University Student Council of UP Diliman.
